TMF Systems | Research to delivery

A service-readiness briefing

The opportunity

Build premium business systems from evidence, explicit requirements and verified operating paths.

All six offers below are specified proposals. None is presented as client-accepted or production-ready.

Priority service families

S01 | Systems assessment

Identify worthwhile automation.

Acceptance: Client validates evidence and ranked opportunities.

Dependency: Read-only application/data inventory.

S03 | Workflow integration

Connect approved business actions.

Acceptance: Duplicate, timeout and recovery scenarios pass.

Dependency: Selected APIs and identity scopes.

S04 | Customer service

Route requests with human takeover.

Acceptance: Case context survives escalation and tool failure.

Dependency: Support CRM, channels and knowledge.

S05 | Revenue operations

Connect invoicing and payments.

Acceptance: Partial payments and credits reconcile without duplicates.

Dependency: Accounting and payment providers.

S06 | Ecommerce operations

Connect orders and fulfillment.

Acceptance: Inventory, partial fulfillment and refunds reconcile.

Dependency: Storefront, stock and shipping systems.

S08 | Payroll operations

Move approved inputs through provider workflow.

Acceptance: Responsible owner reconciles run, payment and filing outcomes.

Dependency: Jurisdiction-specific payroll provider.

What every delivery needs

Scope and business owner; data ownership and permissions; failure and recovery rules; actual acceptance evidence; ongoing support and exit arrangements.

Remaining decisions

Client, jurisdiction, provider entitlements, workflow volumes, cost and support commitments remain to be established.

Source and evidence boundary

https://github.com/acratt13/tmf-research/blob/47b77af/docs/SERVICE-SPEC.md

This briefing summarizes our proposed service specification. It is not independent market validation, regulatory assurance or a completed implementation.

Review status: Pilot artifacts generated; client acceptance pending.
